We are what we eat. Furthermore, that applies not just to our bodies, but also to our minds. An increasing number of scientific studies show that there is a direct link between diet and mental health. Moreover, this is particularly true for children and teens, whose brains and bodies are still developing. Teen Nutrition & Mental Health | Newport Academy They assess nutrition needs and food patterns, plan a diet that's appropriate for your physical and dietary needs, and provide nutrition counseling, such as advice on dietary changes and menu plans. They advise on special diets for medical

conditions such as diabetes, high blood pressure, food allergies, and obesity.
