a daunting task for a young child—there are 101!—and the crammed-in dinosaurs on the page don't provide much visual interest. Overall, the dinosaur information presented is readily found in other, more-interesting books, and the format is an ill fit.

(Board book. 3-5) Kirkus

Reviews 101 Dinosaurs: And Other Prehistoric Reptiles by April ... In 1861, he proposed that

Scelidosaurus was a fish-eater and partially sea-dwelling creature, but made no attempt to reconstruct its life appearance or its relationship to other dinosaur species.
