### **Marx's theory of human nature - Wikipedia**

He argues that this ambiguous statement—widely cited as evidence that Marx broke with all conceptions of human nature in 1845—must be read in the context of Marx's work as a whole. His later writings are informed by an idea of a specifically human nature that fulfills both explanatory and normative functions.

### **Norman Geras, Marx and Human Nature Refutation of a Legend**

Marx and Human Nature: Refutation of a Legend is a 1983 book by the political theorist Norman Geras, in which the author discusses the philosopher Karl Marx's theory of human nature with reference to Marx's Sixth Thesis on Feuerbach. Geras argues that Marx did not deny the existence of a universal human nature, and maintains that the concept of human nature is compatible with historical materialism.

### **Marx and Human Nature - Verso**

First, this version of Marx's account of human need would probably be very widely accepted in modern society, although with varying additions and emphases. Second, human nature, including biological human nature, is perhaps more flexible than Geras takes account of.

### **Marx And Human Nature Refutation**

The belief that Marx's historical materialism entailed a denial of the conception of human nature is, Geras writes, 'an old fixation, which the Althusserian influence in this matter has fed upon. Because this fixation still exists and is misguided, it is still necessary to challenge it.'

## **Marx and Human Nature: Refutation of a Legend - Norman**

Geras separates out three possible interpretations of Marx's meaning: (1) that in its reality the nature of man is conditioned by the ensemble of the social relations; (2) that in its reality human nature, or the nature of man, is manifested in the ensemble of social relations; and (3) that in its reality the nature of man is determined by, or human nature is dissolved in, the ensemble of social relations.

## **Norman Geras - Marx & Human Nature: Refutation of a Legend**

A long essay or short book tackling Marx's views on human nature, and disputing the view that Marx believed there was no immutable human nature. This is somewhat interesting - although it is in essence a polemic against a structuralist view of Marx which has I suspect largely fallen out of favour since this book was written.
