biofouling (Book, 1999)

[WorldCat.org] Recently, enzymatic quorum quenching has proven its potential as an innovative approach for biofouling control in the membrane bioreactor (MBR) for advanced wastewater treatment. However, practical issues on the cost and stability of enzymes are yet to be solved, which requires more effective quorum quenching methods. In this study, a novel quorum quenching strategy, interspecies quorum ... Control of Membrane Biofouling in MBR for Wastewater ... Premature or excessive corrosion of well and plumbing components 2 The characteristic reddish-brown slime or biofilm (biofouling) associated

with iron bacteria contamination is a metabolic byproduct from the oxidation of iron or manganese by the bacteria. If left unchecked, biofouling can clog pump intakes, well screens, filters, and water pipes. Keeping Iron Bacteria out of Your Well - Water Quality and ... Better described as iron biofouling, the problem popularly known as "iron bacteria" is both complex and widespread. Iron and other biofouling consists of biofilms which include living and dead bacteria, their sheaths, stalks, secretions and other leavings, and embedded metal hydroxide particles.
